

Manuscript no. HAEMATOL/2009/019109 entitled "Loss of the Y chromosome in Philadelphia-positive cells predicts a poor response of chronic myelogenous leukemia patients to imatinib mesylate therapy" Authors: Eric Lippert, Gabriel Etienne, Marie-Joelle Mozziconacci, Sophy Laibe, Carine Gervais, Stephane Girault, Nathalie Gachard, Isabelle Tigaud, Nicole Dastugue, Françoise Huguet, Marie-Pierre Fort, Laurence Legros, Virginie Eclache, and François-Xavier Mahon

Information about the contributions of each person named as having participated in the study

- 1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Eric Lippert, eric.lippert@chu-bordeaux.fr

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

- 2) Authors who participated in the **conception of the study**:
- Eric Lippert
Virginie Eclache
François-Xavier Mahon

- 3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Eric Lippert, Marie-Joelle Mozziconacci, Sophy Laibe, Carine Gervais, Nathalie Gachard, Isabelle Tigaud, Nicole Dastugue, Marie-Pierre Fort, Virginie Eclache, and François-Xavier Mahon were responsible for cytogenetic and molecular studies and data collection

Gabriel Etienne, Stephane Girault, Françoise Huguet, Laurence Legros, and François-Xavier Mahon were responsible for patient follow-up and data collection

Eric Lippert and Marie-Pierre Fort were responsible for statistical data analyses

- 4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables:

- **Eric Lippert was responsible for figures 1 and 2**

All authors contributed to data collection and interpretation, discussed the final results and revised the paper critically for intellectual content. All authors collaborated in the final approval of the version to be published.

- 5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Eric Lippert and François-Xavier Mahon were responsible for writing the manuscript

6) Contributors Listed in Acknowledgments:

The authors want to acknowledge funding from La Ligue Contre le Cancer, Comité Aquitaine-Charentes (EL-FXM) and from INCa (to tumorotheque du CHU de Bordeaux). We are also grateful to the Groupe Francophone de Cytogénétique Hématologique (GFCH) and the French Intergroup of CML (Fi-LMC) for their collaboration.
