

Manuscript no. HAEMATOL/2010/027656 entitled “Successful treatment with low-dose imatinib mesylate of therapy-related myeloid neoplasm harboring *TEL-PDGFRB* in a patient with acute promyelocytic leukemia“

Authors: Norio Asou, Eisaku Iwanaga, Tomoko Nanri, Hiroaki Mitsuya

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Norio Asou, Department of Hematology, Kumamoto University School of Medicine, ktcnasou@gpo.kumamoto-u.ac.jp
- Mitsuya Hiroaki, Department of Hematology, Kumamoto University School of Medicine, hmitsuya@gpo.kumamoto-u.ac.jp

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**:

- Norio Asou, Department of Hematology, Kumamoto University School of Medicine, ktcnasou@gpo.kumamoto-u.ac.jp
- Eisaku Iwanaga, Department of Hematology, Kumamoto University School of Medicine, sakusaku6554@fc.kuh.kumamoto-u.ac.jp
- Tomoko Nanri, Department of Hematology, Kumamoto University School of Medicine, tnanri@fc.kuh.kumamoto-u.ac.jp
- Mitsuya Hiroaki, Department of Hematology, Kumamoto University School of Medicine, hmitsuya@gpo.kumamoto-u.ac.jp

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Norio Asou, Tomoko Nanri and Hiroaki Mitsuya were responsible for diagnosis and treatment of the presenting patient.
- Norio Asou and Eisaku Iwanaga were responsible for molecular analyses in this study.

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Norio Asou, Tomoko Nanri and Hiroaki Mitsuya were responsible for the clinical course in the presenting patient (Figure 1).

• **Norio Asou and Eisaku Iwanaga were responsible for molecular analyses in this study (Figure 2).**

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

• **Norio Asou, Eisaku Iwanaga, Tomoko Nanri and Hiroaki Mitsuya were responsible for writing the manuscript.**

6) **Contributors Listed in Acknowledgments:** (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)

This work was supported in part by Grants-in-Aid for Scientific Research from the Japanese Ministry of Education, Culture, Sport, Science and Technology, by Grants-in-Aid for Cancer Research from the Japanese Ministry of Health, Labor and Welfare, and by the Japan Leukaemia Research Fund.
