

Manuscript no. HAEMATOL/2010/030577 entitled “Polymorphisms of NF- κ B family genes are associated with development of multiple myeloma and treatment outcome in patients undergoing bortezomib-based regimens”

Authors: Juan Du, Jun Huo, Jun Shi, Zhengang Yuan, Chunyang Zhang, Weijun Fu, Hua Jiang, Qing Yi, Jian Hou

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Jian Hou, Department of Hematology, Changzheng Hospital, The Second Military Medical University, 415 Fengyang Rd., 200003 Shanghai, China, houjian167@sohu.com

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

• Juan Du and Jian Hou designed the study.

3) Design & Methods. The following authors were responsible for specific investigations

- Hua Jiang was responsible for sample preparation and DNA extraction.
- Juan Du was responsible for genotype analysis using Mass Spectrometry.
- Jun Huo and Jun Shi were responsible for collected and assembled data.
- Zhengang Yuan, Chunyang Zhang, and Weijun Fu were responsible for recruiting patients and reviewing data.
- Juan Du and Zhengang Yuan were responsible for statistical analysis.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- Juan Du was responsible for Figure 1, 2, and 3.
- Juan Du was responsible for Table 1, 2, and 3.
- Juan Du and Jun Huo were responsible for Supplementary Table 1-5.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Juan Du, Qing Yi and Jian Hou were responsible for writing the manuscript.

6) Contributors Listed in Acknowledgments:

The authors would like to thank Benegen Services Inc. for technical support, and Alison Woo for editorial assistance. This study was supported in part by National Natural Science Foundation of China NFSC30670884 and NFSC 30900643, to Jian Hou and Juan Du, respectively; and sponsored by Shanghai Pujiang Program (09PJ1400400) to Juan Du.
