

Manuscript no. HAEMATOL/2011/042333 entitled "Reassessment of small lymphocytic lymphoma in the era of monoclonal B-cell lymphocytosis"

Authors: Gibson SE, Swerdlow SH, Ferry JA, Surti U, Dal Cin P, Harris NL, Hasserjian RP

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Robert P Hasserjian, Department of Pathology, Massachusetts General Hospital, Boston, MA.
rhasserjian@partners.org

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Robert P Hasserjian, Steven H Swerdlow, Nancy L Harris

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Robert P Hasserjian was responsible for collecting and analyzing cases (from Massachusetts General Hospital) and obtaining clinical information on the patients.
- Sarah E Gibson was responsible for collecting and analyzing cases (from University of Pittsburgh School of Medicine) and obtaining clinical information on the patients.
- Steven H Swerdlow was responsible for analyzing cases.
- Nancy L Harris was responsible for analyzing cases.
- Judith A Ferry was responsible for analyzing a subset of cases.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Sarah E Gibson was responsible for Figures 1 and Figures 2 and Tables 1 and 2
- Robert P Hasserjian was responsible for Figure 3 and for performing statistical analysis of the results.
- Nancy L Harris was responsible for Table 3.
- Paola Dal Cin was responsible for analyzing the cytogenetic features of the cases (from Massachusetts General Hospital).
- Urvashi Surti was responsible for analyzing the cytogenetic features of the cases (from University of Pittsburgh School of Medicine).

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Sarah E Gibson was responsible for writing the manuscript.
- Robert P Hasserjian was responsible for editing and submitting the final version of the manuscript.
- Steven H Swerdlow, Nancy L Harris, and Judith A Ferry were responsible for contributing to editing of the manuscript.

6) Contributors Listed in Acknowledgments: None.
