

**Manuscript no. HAEMATOL/2011/040204 entitled “The Wiskott-Aldrich syndrome protein permits the assembly of a focused immunological synapse enabling sustained TCR signalling“**

**Authors: Ronan Calvez, Fanny Lafouresse, Julie De Meester, Anne Galy, Salvatore Valitutti, and Loïc Dupré**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:  
• Dupre Loi, INSERM U1043, Purpan University Hospital, 31300 TOULOUSE, loic.dupre@inserm.fr

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Loic Dupre and Ronan Calvez

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Ronan Calvez performed most experiments, analysed the results and contributed to the writing of the paper
- Fanny Lafouresse performed some of the experiments and their analysis, and contributed to the discussion
- Julie De Meester performed some of the experiments and their analysis, and contributed to the discussion
- Anne Galy prepared and provided control materials and contributed to the discussion of the results
- Salvatore Valitutti contributed to the design of the research and discussed results
- Loic Dupre designed the research, performed some of the experiments, supervised the experiments and their analysis and wrote the paper

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Ronan Calvez and Julie De Meester were responsible for Figure 1
- Ronan Calvez and Loic Dupre were responsible for Figure 2
- Ronan Calvez was responsible for Figure 3
- Ronan Calvez, Fanny Lafouresse and Loic Dupre were responsible for Figure 4
- Ronan Calvez was responsible for Figure 5
- Ronan Calvez was responsible for Figure S1
- Ronan Calvez, Fanny Lafouresse and Loic Dupre were responsible for Figure S2
- Ronan Calvez and Julie De Meester were responsible for Figure S3
- Ronan Calvez was responsible for Figure S4
- Ronan Calvez, Fanny Lafouresse and Loic Dupre were responsible for Figure S5
- Ronan Calvez was responsible for Figure S6
- Ronan Calvez, Fanny Lafouresse and Loic Dupre were responsible for Figure S7

- Ronan Calvez, Fanny Lafouresse and Loic Dupre were responsible for Videos1-8

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Loic Dupre and Ronan Calvez were responsible for writing the manuscript

6) **Contributors Listed in Acknowledgments:**

We are extremely grateful to the patients and their families. We thank Maria-Grazia Roncarolo and AnnaVilla (San Raffaele Telethon Institute for Gene Therapy) for providing patients' samples. We wish to thank Sophie Allard and Daniel Sapede from the IFR150 microscopy platform (Toulouse). We also thank Josipa Spoljaric for manuscript editing.
