

Manuscript no. HAEMATOL/2011/042945 entitled “ADAMTS13 activity and antigen during therapy and follow-up of patients with idiopathic thrombotic thrombocytopenic purpura: correlation with clinical outcome”

Authors: Shangbin Yang, Ming Jin, Shili Lin, Spero Cataland, and Haifeng Wu

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Haifeng M. Wu, Department of Pathology and Internal Medicine, Ohio State University College of Medicine, 164 Hamilton Hall, 1645 Neil Ave., Columbus, OH 43210. Telephone: (614) 292-1798; Fax: (614) 292-3144. E-mail: haifeng.wu@osumc.edu

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Shangbin Yang, Ming Jin, Spero Cataland, and Haifeng Wu

3) Design & Methods. The following authors were responsible for specific investigations:
• Shangbin Yang and Ming Jin were responsible for performing the laboratory work for this study.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):
• Shili Lin was responsible for Figure 1, 2 and 5.
• Shangbin Yang was responsible for Figure 3 and 4.
• Haifeng Wu was responsible for Table 1.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
• Haifeng Wu and Shangbin Yang were responsible for writing the manuscript.

6) Contributors Listed in Acknowledgments:

This work was supported in part by grants from National Institutes of Health K08HL03279, and Ohio Biomedical Research and Technology Transfer Commission.
