Manuscript no. HAEMATOL/2011/042515 entitled “Osteomyelosclerosis, anemia and extramedullary hematopoiesis in mice lacking the transcription factor NFATc2“

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Hofbauer LC, Department of Medicine III, TU Dresden, lorenz.hofbauer@uniklinikum-dresden.de
• Ehninger G, Department of Medicine I, TU Dresden, gerhard.ehninger@uniklinikum-dresden.de
Kiani A, Department of Medicine I, TU Dresden & Bayreuth Clinic, a.kiani@gmx.de

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3............... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Wolfgang Bauer, Martina Rauner, Satu Kujawski, Lorenz Hofbauer, Gerhard Ehninger, Alexander Kiani

3) Design & Methods. The following authors were responsible for specific investigations (please detail):
• Wolfgang Bauer, Satu Kujawski, Laleh Arabanian, Ivonne Habermann were responsible for breeding the mice, all hematological examinations of blood, spleen and bone marrow including blood counts, differentials, FACS, and CFU-assays.
• Martina Rauner, Michael Haase were responsible for histological examinations of bone, bone cell assays and serum markers of bone turnover.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):
• Wolfgang Bauer, Satu Kujawski, Laleh Arabanian, Ivonne Habermann were responsible for Table 1, Figure 1, 2 and 3 and supplementary figures.
• Michael Haase was responsible for bone marrow histology in Figures 2 and 4.
• Martina Rauner was responsible for Figure 4.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
• Wolfgang Bauer, Martina Rauner, Lorenz Hofbauer, Gerhard Ehninger, Alexander Kiani were responsible for writing the manuscript.
• all other authors critically revised the manuscript.

6) Contributors Listed in Acknowledgments:
None.
