

Manuscript no. HAEMATOL/2011/058289 entitled “Prognosis of acute myeloid leukemia harboring monosomal karyotype in patients treated with or without allogeneic hematopoietic cell transplantation after achieving complete remission”

Authors: Masamitsu Yanada, Saiko Kurosawa, Takuhiro Yamaguchi, Takuya Yamashita, Yuki Yoshi Moriuchi, Hiroatsu Ago, Jin Takeuchi, Hirohisa Nakamae, Jun Taguchi, Toru Sakura, Yasushi Takamatsu, Fusako Waki, Hiroki Yokoyama, Masato Watanabe, Nobuhiko Emi, and Takahiro Fukuda

Information about the contributions of each person named as having participated in the study

1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Saiko Kurosawa, Hematology and Stem Cell Transplantation Division, National Cancer Center Hospital, skurosaw@ncc.go.jp

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) **Authors who participated in the conception of the study:** Masamitsu Yanada and Saiko Kurosawa

3) **Design & Methods.** The following authors were responsible for specific investigations:
• Masamitsu Yanada and Saiko Kurosawa were responsible for study design.
• Takuhiro Yamaguchi was primarily responsible for the study design.

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables:
• Masamitsu Yanada and Saiko Kurosawa were responsible for data analysis and created all the figures and tables.
• Takuhiro Yamaguchi was primarily responsible for data analysis.

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:
• Masamitsu Yanada wrote the manuscript.
• Saiko Kurosawa and Takahiro Fukuda interpreted data and participated in writing the manuscript.
• All other authors interpreted data.

6) **Contributors Listed in Acknowledgments:**

This work was supported by grants from the Japanese Ministry of Health, Labour and Welfare and the Advanced Clinical Research Organization.
