**Manuscript no. HAEMATOL/2012/064923 entitled “DangER: protein ovERload - targeting protein degradation to treat myeloma”**

**Authors: Lauren I Aronson and Faith E Davies.**

**Information about the contributions of each person named as having participated in the study**

1) **Guarantor(s),** i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Lauren Aronson, Institute of Cancer Research, lauren.aronson@icr.ac.uk
- Faith Davies, Institute of Cancer Research, faith.davies@icr.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical_1author.html](http://www.icmje.org/ethical_1author.html)): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ……………………… Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) **Authors who participated in the conception of the study:** Lauren I Aronson & Faith E Davies.

3) **Design & Methods.** The following authors were responsible for specific investigations
   Not applicable; the article is a review

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables:
   Not applicable; the article is a review
   All figures were drawn by Lauren I Aronson.

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:
   - Lauren I Aronson & Faith E Davies

6) **Contributors Listed in Acknowledgments:**
   This work was supported by grants from Cancer Research UK and Myeloma UK. FED is a Cancer Research UK Senior Fellow, grant number C20826/A12103.
