

Manuscript no. HAEMATOL/2012/068890 entitled “The quantitative level of T315I mutated BCR-ABL predicts for major molecular response to second line nilotinib or dasatinib treatment in patients with chronic myeloid leukemia“

Authors: Thoralf Lange, Thomas Ernst, Franz X. Gruber, Jacqueline Maier, Michael Cross, Martin C. Müller, Dietger Niederwieser, Andreas Hochhaus and Markus Pfirrmann

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Thoralf Lange, Abteilung für Hämatologie, Onkologie, Hämostaseologie, Universitätsklinikum Leipzig, Leipzig, Germany, langet@medizin.uni-leipzig.de
- Thomas Ernst, Klinik für Innere Medizin II, Universitätsklinikum Jena, Jena, Germany
Thomas.Ernst@med.uni-jena.de
- Markus Pfirrmann, Institut für Medizinische Informationsverarbeitung, Biometrie und Epidemiologie (IBE), Ludwig-Maximilians-Universität München, München, Germany, pfi@ibe.med.uni-muenchen.de

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Thoralf Lange, Thomas Ernst, Michael Cross, Dietger Niederwieser, Andreas Hochhaus, Markus Pfirrmann

3) Design & Methods. The following authors were responsible for specific investigations:

- Thoralf Lange, Thomas Ernst, Franz X. Gruber, Jacqueline Maier, Michael Cross, Martin C. Müller, were responsible for analyzing samples
- Markus Pfirrmann was responsible for statistics

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- Thoralf Lange, Thomas Ernst, Markus Pfirrmann were together responsible for all figures and tables

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Thoralf Lange, Thomas Ernst, Markus Pfirrmann were together responsible for writing the manuscript

6) Contributors Listed in Acknowledgments:

This work was supported by part by the BMBF-grant on Medical Systems biology “HaematoSys” (BMBF-FKZ 0315452).
