Manuscript no. HAEMATOL 2012/073619 entitled “Fetal hemoglobin and hydroxycarbamide modulate both plasmatic concentration and cellular orgin of microparticles in sickle cell anemia children“

Authors: Danitza NÉBOR, Marc ROMANA, Raoul SANTIAGO, Nathalie VACHIERY, Julien PICOT, Cédric BROQUERE, Vicky CHAAR, Lydia DOUMDO, Marie-Hélène ODRIEVRE, Malika BENKERROU, and Jacques ELION

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
   • Jacques ELION, Inserm UMR S 665, jacques.elion@inserm.fr

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 .................... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:
   • Marc ROMANA, Inserm UMR S 665, marc.romana@inserm.fr
   • Jacques ELION, Inserm UMR S 665, jacques.elion@inserm.fr

3) Design & Methods. The following authors were responsible for specific investigations:
   • Raoul SANTIAGO, Julien PICOT, Nathalie VACHIERY, Marc ROMANA and Vicky CHAAR were responsible for the design of flow cytometry experiments
   • Danitza NÉBOR, Marc ROMANA, Raoul SANTIAGO, Vicky CHAAR and Cédric BROQUERE were responsible for MPs preparation and analysis of flow cytometry experiments
   • Lydia DOUMDO, Marie-Hélène ODRIEVRE and Malika BENKERROU were responsible for the patient selection and data collection
   • Marc ROMANA and Raoul SANTIAGO were responsible for statistical analysis
   • Danitza NÉBOR, Marc ROMANA, Raoul SANTIAGO, Julien PICOT, Nathalie VACHIERY and Jacques ELION interpreted the data

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:
   • Jacques ELION and Marc ROMANA were responsible for Table 1 and 2 and Figure 1 and 2

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
   • Jacques ELION and Marc ROMANA were responsible for writing the manuscript

6) Contributors Listed in Acknowledgments:
No person other than the authors provided additional assistance, except for the sickle cell patients who participated in the study and the medical staff of the “Unité Transversale de la Drépanocytose” at the University Hospital of Pointe-à-Pitre as stated in the Acknowledgements.
Financial support is mentioned.
