Title: Monocyte count at diagnosis is a poor prognostic parameter in diffuse large B-cell lymphoma: a large multicenter study involving 1191 patients, in the pre and post rituximab era.

First author: Tamar Tadmor

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html):

"Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author(s) of this manuscript confirm(s) that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Specific contributions of each author are listed on page 2 of this document.

Responsible author(s):

author(s) responsible for the integrity of the work as a whole

Author contributions (maximum 1 page):

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data, preparation of the text, etc.)

1. Tamar Tadmor: collection of data, experiments, data analysis, collection of images, interpretation of data, preparation of the text,
2. Alessia Bari: collection of data, experiments, data analysis, collection of images, interpretation of data, preparation of the text,
3. Stefano Sacchi: collection of data, experiments, data analysis, collection of images, interpretation of data, preparation of the text,
4. Luigi Marcheselli: collection of data, experiments, data analysis, generation of figures, collection of images, interpretation of data,
5. Eliana Valentina Liardo: collection of data, experiments,
6. Irit Avivi: collection of data, experiments,
7. Noam Benyamini: collection of data,
8. Dina Attias: collection of data,
9. Samantha Pozzi: collection of data,
10. Maria Christina Cox: collection of data, experiments, data analysis,
11. Luca Baldini: collection of data,
12. Maura Brugiatelli: collection of data,
13. Massimo Federico: collection of data, experiments,
14. Aaron Polliack: collection of data, experiments, data analysis, collection of images, interpretation of data, preparation of the text,
