HAEMATOL/2016/160481  
Version 4

Dynamics of epigenetic age following hematopoietic stem cell  
transplantation

Friedrich Stölzel, Mario Brosch, Steve Horvath, Michael Kramer,  
Christian Thiede, Malte von Bonin, Ole Ammerpohl, Moritz Middeke,  
Johannes Schetelig, Gerhard Ehninger, Jochen Hampe, and Martin  
Bornhäuser

Disclosures: All authors declare that there are no competing financial interests.

Contributions: FS selected patients, identified samples for analysis. CT extracted patient and donor DNA and performed chimerism analyses. OA performed Illumina bead chip arrays. FS, MB, MvB, MM, JS, JH characterized patient samples. FS, MBr, MBo, MK, JH and SH analyzed and interpreted data. FS, MBr, JH, MBo, MK and SH wrote the manuscript. All authors read, commented, revised, and approved the final version of the manuscript.
