Version 3

Multiple myeloma with central nervous system relapse

Philip A Egan, Patrick T Elder, W Ian Deighan, Sheila J M O'Connor,
and H Denis Alexander

Disclosures: The authors have no disclosures or conflicts of interest.

Contributions: PAE wrote the initial drafts of the review and contributed to the overall document, including final edit with HDA. PTE wrote the Treatment overview and contributed to the overall document. WID designed Fig 1, contributed to the Diagnosis section and contributed to the overall document. SJMOC analysed the HMDS data, including Table 1, wrote the Cytogenetics section with PAE, and contributed to the overall document. HDA devised the concept, co-wrote the review with PAE and each specialist section with the named co-authors, and co-ordinated the final edit of the Review.
