

Manuscript no. HAEMATOL/2009/018580 entitled "Dexamethasone versus Prednisolone for Adult Acute Lymphoblastic Leukemia (ALL) and Lymphoblastic Lymphoma (LBL) Patients - Final Results of the ALL-4 Randomized, Phase III. Trial of the EORTC Leukemia Group"

Information about the contributions of each person named as having participated in the study:

1. Guarantor(s), i.e., person(s) who is(are) responsible for the integrity of the work as a whole:
 - Theo de Witte, Chairman of the Leukemia Group
 - Jean-Pierre Marie Secretary of the Leukemia
 - Stefan Suci, Statistician,
 - Roel Willemze
 - Boris Labar
2. Authors who participate in the conception of the study:
Boris Labar, Stefan Suci, Roel Willemze, Petra Muus, Jean-Pierre Marie, Georges Fillet, Walter Feremans, Dominique. Bron, Sergio Amadori, Theo de Witte
3. Design and Methods. The following authors were responsible for specific investigations:
Boris Labar, Stefan Suci, Petra Muus, Roel Willemze, Jean-Pierre Marie, Georges Fillet, Zwi Berneman, Branimir Jaksic, Walter Feremans, Dominique Bron, Harm Sinnige, Martin Mistrik, G. Vreugdenhil, Robrecht De Bock, Damir Nemet, Sergio Amadori, Theo de Witte were responsible for design of the study, treatment design and patient population.
Stefan Suci and Caroline Gilotay were responsible for Statistical Methods.
4. Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the persons responsible for each figure and each table):
Stefan Suci were responsible for Figures and Data; he made statistical analysis.
Boris Labar were responsible for Tables
5. Writing the manuscript. The following authors were responsible for writing the manuscript:
Boris Labar and Stefan Suci prepared the manuscript.
Roel Willemze, Jean-Pierre Marie and Theo de Witte add to the Results and Discussion very important comments.
6. Contributors Listed in Acknowledgments: (Examples of those who might be acknowledged include person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare:
The authors wish to thank the physicians, nurses and data managers of the participating centers for contributing their data and their experience, as well the EORTC Headquarters Data Managers (Gabriel Solbu). We are deeply indebted to late Prof. Dr. Pierre Stryckmans, co-coordinator of this study, for his great contribution, who he deceased in 2001.

This study was supported by Kankerbestrijding/Koningin Wilhelma Fonds, The Netherlands Fonds Cancer (FOCA) from Belgium and also by grants from Cancer Institute (grant numbers 2U10 CA11488-25 through 5U10 CA11489-39). Its contents are solely the responsibility of the authors and do not represent the official views of the National Cancer Institute (Bethesda, Maryland, USA).
