

**Manuscript no. HAEMATOL Published Ahead of Print on April 7, 2010, as doi:10.3324/haematol.2009.019885.entitled "Efficient lysis of rhabdomyosarcoma by cytokine-induced killer cells: implications for adoptive immunotherapy after allogeneic stem cell transplantation." Authors: S.Kuçi, E. Rettinger, B. Voss, G. Weber, M. Stais, H. Kreyenberg, A. Willasch, Z.Kuci, E. Koscielniak, S. Klöss, D. von Laer, T. Klingebiel, P. Bader.**

**Information about the contributions of each person named as having participated in the study**

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Peter Bader, Hospital for Children and Adolescents II /III, Frankfurt/Main, Germany, [peter.bader@kgu.de](mailto:peter.bader@kgu.de)
- Selim Kuci, Hospital for Children and Adolescents II /III, Frankfurt/Main, Germany, [selim.kuci@kgu.de](mailto:selim.kuci@kgu.de)

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

- Peter Bader, Hospital for Children and Adolescents II /III, Frankfurt/Main, Germany, [peter.bader@kgu.de](mailto:peter.bader@kgu.de)
- Selim Kuci, Hospital for Children and Adolescents II /III, Frankfurt/Main, Germany, [selim.kuci@kgu.de](mailto:selim.kuci@kgu.de)
- Eva Rettinger, Hospital for Children and Adolescents II /III, Frankfurt/Main, Germany, [eva.rettinger@kgu.de](mailto:eva.rettinger@kgu.de)
- Dorothea v. Laer, Biopharmaceutical Institute Georg-Speyer-Haus, Germany, [dorothee.von-Laer@i-med.ac.at](mailto:dorothee.von-Laer@i-med.ac.at)
- Thomas Klingebiel, Hospital for Children and Adolescents II /III, Frankfurt/Main, Germany, [thomas.klingebiel@kgu.de](mailto:thomas.klingebiel@kgu.de)

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Selim Kuci was/were responsible for conception of the study, the experiments, data evaluation and manuscript writing.
- Eva Rettinger, Bernhard Voss, Gerrit Weber, Miriam Stais, Hermann Kreyenberg, Andre Willasch, Zyrafete Kuci, and Stephan Kloess were responsible for performing experiments and data evaluation.
- Eva Koscielniak was responsible for generating of tumor cell lines and data evaluation.
- Dorothea v. Laer and Thomas Klingebiel was/were responsible for conception and design.

- **Peter Bader was responsible for conception of the study, data evaluation and manuscript writing.**
- 

**4) Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- **Selim Kuci was responsible for flow cytometry analysis and evaluation of data.**
- **Eva Rettinger, Bernhard Voss were responsible for generating CIK cells and performing cytotoxicity experiments.**
- **Gerrit Weber, Miriam Stais, Herman Kreyenberg, Andre Willasch, Zyrafete Kuci performed tumor cell culturing and flow cytometry.**
- **Stephan Kloess was responsible for detection of effector molecules (Fig 5 c)**

**5) Writing the manuscript.** The following authors were responsible for writing the manuscript:

**Selim Kuci, Eva Rettinger, Bernhard Voss, and Peter Bader**

**6) Contributors Listed in Acknowledgments:** (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)
