

Manuscript no. HAEMATOL/2009/021592

entitled "Short-term cryopreservation of allogeneic stem cells for optimization of transplant conditions in children"

Authors: Petra Sovinz, Wolfgang Schwinger, Herwig Lackner, Andrea Nebl, Sabine Sipurzynski and Christian Urban

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Petra Sovinz; Division of Pediatric Hematology/ Oncology, Department of Pediatrics and Adolescent Medicine, Medical University of Graz, Austria; petra.sovinz@klinikum-graz.at
- Wolfgang Schwinger; Division of Pediatric Hematology/ Oncology, Department of Pediatrics and Adolescent Medicine, Medical University of Graz, Austria;
wolfgang.schwinger@medunigraz.at

Christian Urban; Division of Pediatric Hematology/ Oncology, Department of Pediatrics and Adolescent Medicine, Medical University of Graz, Austria; christian.urban@medunigraz.at

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Christian Urban, Petra Sovinz, Wolfgang Schwinger,

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Petra Sovinz contributed to data acquisition
- Wolfgang Schwinger performed CD3/19 depletions and analyses of aliquots, and was responsible for chimerism studies and immune follow-up
- Herwig Lackner contributed to data acquisition
- Andrea Nebl contributed to data acquisition
- Sabine Sipurzynski performed CD34+selections and cryopreservation
- Christian Urban enrolled patients and contributed to data acquisition

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Petra Sovinz and Wolfgang Schwinger were responsible for Figure 1
- Petra Sovinz was responsible for Table 1

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- **Petra Sovinz was responsible for writing the manuscript; Herwig Lackner provided substantial comments on the manuscript; Wolfgang Schwinger and Christian Urban coauthored and critically revised the manuscript**

6) Contributors Listed in Acknowledgments: Andrea Raicht, B.Sc., and Barbara Egener, B.Sc, performed SNP and FACS analyses and provided technical assistance.
