

Manuscript no. HAEMATOL/2010/025072 entitled " Utility of bone marrow biopsy at diagnosis in pediatric Hodgkin lymphoma " Authors Hines-Thomas MR, Howard SC, Hudson MM, Krasin MJ, Kaste SC, Shulkin BL, Metzger ML

Information about the contributions of each person named as having participated in the study

1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• **Monika L. Metzger, MD, MSc** Department of Oncology St Jude Children's Research Hospital and University of Tennessee Health Sciences Centre, Memphis, TN monika.metzger@stjude.org

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**:

Melissa Hines-Thomas, MD - University of Tennessee Health Sciences Center, Memphis, TN, mhines5@uthsc.edu

Monika L Metzger, MD, MSc - Department of Oncology St Jude Children's Research Hospital and University of Tennessee Health Sciences Centre, Memphis, TN monika.metzger@stjude.org

Scott C Howard, MD, MSc- Department of Oncology St Jude Children's Research Hospital and University of Tennessee Health Sciences Centre, Memphis, TN scott.howard@stjude.org

Melissa M Hudson, MD - Department of Oncology St Jude Children's Research Hospital and University of Tennessee Health Sciences Centre, Memphis, TN melissa.hudson@stjude.org

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- **Monika Metzger** was responsible for reviewing the patient characteristics and taking care of many of the patients
- **Melissa Hines-Thomas** was responsible for reviewing the bone marrow pathology and correlate it with the outcome

Melissa Hudson and **Scott Howard** were responsible for discussing the design and the methods, as well as treating a good portion of the patients described in this study

Matthew Krasin was responsible for the radiotherapy that these patients received

Sue Kaste was responsible for the staging scans for all of the patients and participated in the multidisciplinary discussion associated with patient care

Barry Shulkin was responsible for the PET scans that these patients underwent as part of their staging and response evaluation

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- **Melissa Hines-Thomas** and **Monika Metzger** were responsible for table 1
- **Melissa Hines-Thomas** was responsible for table 2
- **Monika Metzger** and **Scott Howard** were responsible for table 3
- **Melissa Hines Thomas** was responsible for figure 1
- **Monika Metzger** was responsible for figure 2A and 2B

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

Melissa R. Hines-Thomas and **Monika L. Metzger** were responsible for writing the manuscript and all authors approved the final version of the manuscript

6) **Contributors Listed in Acknowledgments:**

Funding

This work was supported by the National Institutes of Health Cancer Support Core Grant (CA-21765) and the American Lebanese Syrian Associated Charities (ALSAC).

Acknowledgments

Sharon Naron for her scientific editing.
