

Manuscript no. HAEMATOL: HAEMATOL/2009/020958

Entitled: Platelet-derived growth factor enhances platelet recovery in a murine model of radiation-induced thrombocytopenia and reduces apoptosis in megakaryocytes via its receptors and PI3-k/Akt pathway

Authors: Jie Yu Ye, Godfrey Chi Fung Chan, Liang Qiao, Qizhou Lian, Fan Yi Meng, Xue Qun Luo, Levon M. Khachigian, Ming Ma, Ruixia Deng, Jian Liang Chen, Beng H. Chong, and Mo Yang

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Mo Yang, Department of Paediatrics and Adolescent Medicine, LKS Faculty of Medicine, The University of Hong Kong, Hong Kong, yangm1091@yahoo.com
- Godfrey Chi Fung Chan, Department of Paediatrics and Adolescent Medicine, LKS Faculty of Medicine, The University of Hong Kong, Hong Kong, gcfchan@hkucc.hku.hk

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

- Fan Yi Meng, Department of Hematology, Nanfang Hospital, Southern Medical University, Guang Zhou, PR China, mengfu@medmail.com.cn
- Xue Qun Luo, Department of Pediatric, The First Affiliated Hospital of Sun Yat-Sen University, Guangzhou, PR China, l-xuequn@126.com
- Beng H. Chong, Centre for Vascular Research, University of New South Wales, Sydney, Australia, Bengchong1@gmail.com
- Levon M. Khachigian, Centre for Vascular Research, University of New South Wales, Sydney, Australia, L.Khachigian@unsw.edu.au

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Jie Yu Ye was responsible for performing the cell culture and flow cytometry experiments.
- Ming Ma and Ruixia Deng was responsible for the animal works.
- Jian Liang Chen was responsible for performing the western blot experiments.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Liang Qiao was responsible for analyzing and interpreting the results of figure 1 and 2.
- Qizhou Lian was responsible for analyzing and interpreting the results of figure 3 - 6.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Jie Yu Ye was responsible for writing the paper.
- Mo Yang and Godfrey Chi Fung Chan was responsible for revising the paper and final approval of the version to be published

6) Contributors Listed in Acknowledgments:

We gratefully acknowledge the technical support with Mr. Shing Chan. We also acknowledge the following colleagues: Mr. Sau Wan Cheng, Mr. Ching Po Lau and Mr. N.H. Pong, from The Chinese University of Hong Kong for technical assistance in the animal study. This work was supported in part by Seed Funding for Basic Research, The University of Hong Kong (MYang).
