

Manuscript no. HAEMATOL.2009.020073 entitled "Voriconazole for secondary prophylaxis of invasive fungal infection in allogeneic stem cell transplant recipients: results of the VOSIFI study" Authors: Catherine Cordonnier, Montserrat Rovira, Johan Maertens, Eduardo Olavarria, Catherine Faucher, Karin Bilger, Arnaud Pigneux, Oliver A Cornely, Andrew J. Ullmann, Rodrigo Martino Bofarull, Rafael de la Cámara, Maja Weisser, Effie Liakopoulou, Manuel Abecasis, Claus Peter Heussel, Marc Pineau, Per Ljungman, and Hermann Einsele on behalf of the Voriconazole for Secondary Prophylaxis of Invasive Fungal Infections in Patients With Allogeneic Stem Cell Transplants (VOSIFI) study group and the Infectious Diseases Working Party of the European Group for Blood and Marrow Transplantation (EBMT)

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Catherine Cordonnier; Service d'Hématologie Clinique, Hôpital Henri Mondor, Créteil, France; carlcard@club-internet.fr

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Catherine Cordonnier, Marc Pineau

3) Design & Methods. The following authors were responsible for specific investigations:
• Catherine Cordonnier, Montserrat Rovira, Johan Maertens, Eduardo Olavarria, Catherine Faucher, Karin Bilger, Arnaud Pigneux, Oliver A Cornely, Andrew J. Ullmann, Rodrigo Martino Bofarull, Rafael de la Cámara, Maja Weisser, Effie Liakopoulou, Manuel Abecasis, Per Ljungman, and Hermann Einsele were responsible for recruiting patients.
• Catherine Cordonnier, Oliver A. Cornely, Claus Peter Heussel, Montserrat Rovira and Rafael de la Camara were responsible for reviewing the clinical data in their function as data review board members.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:
• Catherine Cordonnier, Montserrat Rovira, Johan Maertens, Eduardo Olavarria, Catherine Faucher, Karin Bilger, Arnaud Pigneux, Oliver A Cornely, Andrew J. Ullmann, Rodrigo Martino Bofarull, Rafael de la Cámara, Maja Weisser, Effie Liakopoulou, Manuel Abecasis, Per Ljungman, and Hermann Einsele were responsible for collecting patient data.
• Catherine Cordonnier, Oliver A. Cornely, Claus Peter Heussel, Montserrat Rovira and Rafael de la Camara were responsible for confirming the diagnosis of invasive fungal infection in each patient and thus also for Figure 1.
• Catherine Cordonnier was responsible for Figure 2.
• Catherine Cordonnier and Marc Pineau were responsible for Table 1.
• Catherine Cordonnier and Marc Pineau were responsible for Table 2.

- Catherine Cordonnier and Marc Pineau were responsible for coordinating the research and reviewing the overall data analysis.

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Catherine Cordonnier was responsible for drafting the manuscript.
- All authors were responsible for providing comments on the draft manuscript following critical review of the content.
- Catherine Cordonnier was responsible for revising the manuscript based on comments from all other authors.
- All authors were responsible for approving the final submitted version.

6) **Contributors Listed in Acknowledgments:**

Ian McKenzie (full-time employee of Pfizer) and Paul Miller (full-time employee of Pfizer) provided assistance with the statistical analysis of the data, which was funded by Pfizer. Myriam Labopin (Paris EBMT office), Virginie Chesnel (Paris EBMT office) and Benedicte Samey (Paris EBMT office) provided the data on the patients' conditioning regimens, graft-versus-host disease, and cumulative incidence curves of invasive fungal infections; this support was funded by the EBMT. Dominik Wolf (of Parexel) provided editorial support, which was funded by Pfizer.
