

Manuscript no. HAEMATOL/2010/027821 entitled "Lycorine sensitizes CD40_L protected chronic lymphocytic leukemia cells to bezafibrate and medroxyprogesterone acetate induced apoptosis but dasatanib does not overcome reported CD40-mediated drug resistance"

Authors: Rachel E Hayden, Guy Pratt, Mark T Drayson, Chris M Bunce

Information about the contributions of each person named as having participated in the study

- 1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Rachel Hayden, University of Birmingham, r.e.hayden@bham.ac.uk
 - Chris Bunce, University of Birmingham, c.m.bunce@bham.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Rachel E Hayden, Chris M Bunce

3) **Design & Methods**. The following authors were responsible for all of the investigations within the study

- Rachel E Hayden
- Chris M Bunce

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables. **The investigations to generate the data for ALL figures and the composition of ALL figures was carried out by:**

- Rachel E Hayden

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Rachel E Hayden, interpreted all data and wrote the complete first draft of the manuscript
- Chris M Bunce was responsible for editing the manuscript, interpretation of data
- Mark T Drayson, University of Birmingham, m.t.draysn@bham.ac.uk was responsible for editing the manuscript, interpretation of data
- Guy Pratt, University of Birmingham, g.e.pratt@bham.ac.uk was responsible for editing the manuscript for intellectual content.

6) **Contributors Listed in Acknowledgments:**

(The study was supported by a grant from Leukaemia and Lymphoma Research (LLR))
