

Manuscript no. HAEMATOL2010/023713 entitled "Heparanase enhances factor Xa generation in the presence of tissue-factor and factor VIIa"

Authors: Yona Nadir, Benjamin Brenner, Liat Fux, Itay Shafat, Judith Attias, Israel Vlodavsky

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

Yona Nadir M.D., Ph.D. Thrombosis and Hemostasis Unit, Department of Hematology and Bone Marrow Transplantation, Rambam Medical Center, Haifa 31096, Israel

Tel: +972 4 8543520

Fax: +972 4 8543886

e-mail: y_nadir@rambam.health.gov.il

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Yona Nadir

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Yona Nadir was responsible for design, acquisition of data, analysis and interpretation of data.
- Liat Fux, Itay Shafat, Juddit Atias were responsible for analysis of Heparanase using ELIZA, Thromboelastogram, western blot and coagulation assays.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Nadir Yona, Liat Fux, Itay Shafat, Juddit Atias were responsible for collection of the results data and organize it to figures.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Nadir Yona was responsible for writing the manuscript
- Benjamin Brenner and Israel Vlodavsky were responsible for revising it critically for important intellectual content.

6) Contributors Listed in Acknowledgments:

This work was supported by grants from the Israel Science Foundation - Legacy Heritage Clinical Research Initiative (1636/09) and the National Cancer Institute, NIH (R01-CA106456). I. Vlodavsky is a Research Professor of the ICRF.
