

Manuscript no. HAEMATOL/2010/026708 entitled "Comparison of different criteria for the diagnosis of primary myelofibrosis reveals limited clinical utility for measurement of serum lactate dehydrogenase"

Authors: Philip A Beer, Peter J Campbell and Anthony R Green

Information about the contributions of each person named as having participated in the study

- 1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Anthony Green University of Cambridge, UK; arg1000@cam.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Philip A Beer, Peter J Campbell and Anthony R Green

3) **Design & Methods.** The following authors were responsible for specific investigations:

- Philip A Beer was responsible for study design, data collection and analysis
- Peter J Campbell was responsible for study design and directing the statistical analysis

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables:

- Philip A Beer was responsible for all tables and figures
- Peter J Campbell was responsible for directing the statistical analysis

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Philip A Beer and Anthony R Green were responsible for writing the manuscript
- Peter J Campbell was responsible for reviewing and advising on the manuscript

6) **Contributors Listed in Acknowledgments:**

We would like to thank Dr Wendy Erber and Dr Penny Wright for helpful comments on bone marrow histology.
