

**Manuscript no. HAEMATOL/2010/ 024349 entitled "p-ERK1/ 2 is a predictive factor of response to erythropoiesis-stimulating agents in low/int-1 myelodysplastic syndromes"**

**Authors:** Emilie Frisan, Patrycja Pawlikowska, Cecile Pierre-Eugène, Vivian Viallon, Laure Gibault, Sophie Park, Patrick Mayeux, François Dreyfus, Françoise Porteu, Michaëla Fontenay.

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Porteu française, INSERM U1016, [françoise.porteu@inserm.fr](mailto:françoise.porteu@inserm.fr)
- Michaela Fontenay, AP-HP, INSERM U1016, [michaela.fontenay@inserm.fr](mailto:michaela.fontenay@inserm.fr)

According to the International Committee of Medical Journal Editors (ICMJE)

([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Françoise Porteu, Michaela Fontenay

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Sophie Park recorded patients
- François Dreyfus analyzed the data and recorded patients
- Patrick Mayeux analyzed the data
- Vivian Viallon performed the statistical analysis

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Emilie Frisan was responsible for performing research (Figure 1, 2C)
- Patrycja Pawlikowska was responsible for performing research (Figure 2A)
- Cecile Pierre-Eugène was responsible for performing research (Figure 2B and 2C)
- Laure Gibault was responsible for performing research (Figure 2B)
- Vivian Viallon was responsible for Figure 2D and 2E

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Françoise Porteu
- Michaela Fontenay

**6) Contributors Listed in Acknowledgments:** (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)

The authors thank Pr. Catherine Lacombe, Drs. Valérie Bardet, Martine Guesnu, Olivier Kosmider, Frédérique Verdier, Yaël Zermati for help in study design, and data analysis, and Mrs. Lamy Slama for technical assistance.

The authors thank clinicians of the Groupe Francophone des Myélodysplasies: Drs. Catherine Delacroix, Marie-Catherine Quarré, Dominique Vassilieff, Jérôme Tamburini, Pr. Didier Bouscary from the Unité Fonctionnelle d'Hématologie, Département de Médecine Interne, Hôpital Cochin, Assistance Publique-Hôpitaux de Paris, for including patients, and Dr. Mosnier-Damet from the Institute of Pathology in Clermont-Ferrand.

The authors also thank Rosa Sapena for recording data, and Maryline Delattre from the Direction Régionale de la Recherche Clinique for study management.
