

**Manuscript no.HAEMATOL/2010/029306 entitled "Molecular mechanisms associated with leukaemic transformation of MPL-mutant myeloproliferative neoplasms"**

**Authors: Philip A Beer, Christina A Ortmann, Frank Stegelmann, Paula Guglielmelli, John T Reilly, Thomas S Larsen, Hans C Hasselbalch, Alessandro M Vannucchi, Peter Möller, Konstanze Döhner and Anthony R Green.**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:  
• Prof Anthon R Green, University of Cambridge, arg1000@cam.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Philip Beer and Anthony Green

3) **Design & Methods**. The following authors were responsible for specific investigations  
• Philip Beer and Anthony Green were responsible for the design of the study

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables

- Christina Ortmant was responsible for the sequencing of TET2
- Philip Beer was responsible for all other data, as well as Figures 1 & 2
- John T Reilly, Thomas S Larsen, Hans C Hasselbalch, and Philip Beer were responsible for collecting the patient samples and clinical information included in Table 1
- Philip Beer, Frank Stegelmann, Paula Guglielmelli, Alessandro Vannucchi, Konstanze Döhner and Anthony Green were responsible for collecting patient samples and clinical information included in Table 2.
- Philip Beer, Peter Möller and Anthony Green were responsible for the assessment of bone marrow trephine histology included in Figure 1.

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:  
• Philip Beer and Anthony Green wrote the manuscript

6) **Contributors Listed in Acknowledgments**:

Drs Penny Wright and Wendy Erber of Addenbrooke's hospital are acknowledged for helpful advice on bone marrow histology.
