

**Manuscript no. HAEMATOL/2010/027177 entitled Polymorphic variation within the VWF gene contributes to the failure to detect mutations in patients historically diagnosed with type 1 VWD from the MCMDM-1VWD cohort"**

**Authors: Daniel J. Hampshire, George J. Burghel, Jenny Goudemand, Laura C. S., Bouvet, Jeroen C. J. Eikenboom, Reinhard Schneppenheim, Ulrich Budde, Ian R., Peake and Anne C. Goodeve on behalf of the EU-VWD and ZPMCB-VWD study groups**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Daniel J. Hampshire, Haemostasis Research Group, Department of Cardiovascular Science, Faculty of Medicine, Dentistry and Health, University of Sheffield, UK. E-mail: [d.hampshire@shef.ac.uk](mailto:d.hampshire@shef.ac.uk)

- Anne C. Goodeve, Haemostasis Research Group, Department of Cardiovascular Science, Faculty of Medicine, Dentistry and Health, University of Sheffield, UK. E-mail: [a.goodeve@shef.ac.uk](mailto:a.goodeve@shef.ac.uk)

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

**The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

**2) Authors who participated in the conception of the study:** Daniel J. Hampshire and Anne C. Goodeve.

**3) Design & Methods.** The following authors were responsible for specific investigations

- Daniel J. Hampshire initiated / coordinated and designed the study, performed data collection, and performed laboratory analysis.
- George J. Burghel, Jenny Goudemand and Laura C. S. Bouvet performed data collection and performed laboratory analysis.
- Jeroen C. J. Eikenboom, Reinhard Schneppenheim, Ulrich Budde and Ian R. Peake performed data collection.
- Anne C. Goodeve initiated / coordinated and designed the study and performed data collection.

**4) Results.** The following authors were responsible for specific portions of the results, including figures and tables:

- Daniel J. Hampshire and Anne C. Goodeve were responsible for both tables.
- Daniel J. Hampshire, George J. Burghel and Jenny Goudemand analyzed / interpreted results.

**5) Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Daniel J. Hampshire, George J. Burghel and Anne C. Goodeve wrote the original manuscript, proofread and revised the original manuscript, and approved the final manuscript.
- Jenny Goudemand, Laura C. S. Bouvet, Jeroen C. J. Eikenboom, Reinhard Schneppenheim, Ulrich Budde and Ian R. Peake proofread and revised the original manuscript, and approved the final manuscript.

## **6) Contributors Listed in Acknowledgments:**

- Members of the EU-VWD and ZPMCB-VWD study groups who contributed to this study: Francesco Rodeghiero, Giancarlo Castaman, Augusto Federici, Javier Batlle, Dominique Meyer, Claudine Mazurier, Jørgan Ingerslev, David Habart, Stefan Lethagen, John Pasi, Frank Hill, Robert Montgomery, Sandra Haberichter, David Lillicrap and Paula James.
- John Anson and Lisa Bloomer, University of Sheffield provided technical support.
- This work was supported by the National Institutes of Health grant Zimmerman Program for the Molecular and Clinical Biology of VWD [HL-081588] and the European Community Fifth Framework Programme [QLG1-CT-2000-00387].
