

Manuscript no. HAEMATOL/2010/028241- entitled "CD4-positive Th responses to the PASD1 protein in patients with diffuse large B-cell lymphoma"

Authors: Kamel Ait-Tahar PhD, Amanda P. Liggins PhD, Graham P. Collins MRCP, Andrew Campbell MRCP, Martin Barnardo FRCPATH, Maite Cebes, Charles H. Lawrie DPhil, Donald Moir FRCP, Chris Hatton FRCP, Alison H. Banham FRCPATH, Karen Pulford FRCPATH.

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Kamel Ait-Tahar, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. akemal80@hotmail.com
- Amanda Liggins, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. daydreamer.99@hotmail.com
- Graham Collins, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. Graham.Collins@orh.nhs.uk
- Andrew Campbell, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. andrew.campbell@ndcls.ox.ac.uk
- Martin Barnardo, Transplant Immunology & Immunogenetics, Oxford Transplant Centre, Churchill Hospital, Oxford, OX3 7LJ, U.K. martin.barnardo@orh.nhs.uk
- Maite Cebes, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. maite.cebes@ndcls.ox.ac.uk
- Charles H. Lawrie, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. charles.lawrie@ndcls.ox.ac.uk
- Donald Moir, Department of Hematology, Milton Keynes General Hospital, Milton Keynes, MK6 5LD, U.K. 243186@soas.ac.uk
- Chris Hatton, Department of Hematology, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. Chris.Hatton@orh.nhs.uk
- Alison H Banham, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. alison.banham@ndcls.ox.ac.uk
- Karen Pulford, Nuffield Department of Clinical Laboratory Sciences, John Radcliffe Hospital, Oxford, OX3 9DU, U.K. karen.pulford@ndcls.ox.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study Ait-Tahar, Banham, Hatton, Liggins and Pulford.

3) **Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Ait-Tahar and Pulford were responsible for *In vitro* T-cell functions and immunolabelling studies
- Barnardo was responsible for the tissue typing.

- Cabes, Collins, Campbell, Liggins, Moir and Hatton were responsible for providing samples.

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables.

- Pulford and Ait-Tahar were responsible for Figures 1, 2, 3, 4....
- Lawrie, Collins, Hatton, Campbell, Pulford and Cabes, were responsible for Table
- Pulford, Barnardo and Pulford were responsible for Table 2.
- All authors were involved in preparing the Results section.

5) **Writing the manuscript.**

- The following authors were responsible for writing the manuscript, revising the manuscript and its final approval : Ait-Tahar, Liggins. Collins, Campbell, Barnardo, Cabes, Lawrie, Moir, Hatton, Banham and Pulford.

6) **Contributors Listed in Acknowledgments:** We would like to thank Mrs Vanessa Brennan and Valerie Webb for their help in obtaining patient samples
