

Manuscript no. HAEMATOL/2010/030296 entitled “Proliferation is a central independent prognostic factor and target for personalized and risk adapted treatment in multiple myeloma”

Authors: Dirk Hose, Thierry Rème, Thomas Hielscher, Jérôme Moreaux, Tobias Meißner, Anja Seckinger, Axel Benner, John D. Shaughnessy Jr., Bart Barlogie, Yiming Zhou, Jens Hillengass, Uta Bertsch, Kai Neben, Thomas Möhler, Jean François Rossi, Anna Jauch, Bernard Klein and Hartmut Goldschmidt

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Hose, Dirk, Medizinische Klinik V, Universitätsklinikum Heidelberg, Heidelberg, Germany and Nationales Centrum für Tumorerkrankungen, Heidelberg, Germany; dirk.hose@med.uni-heidelberg.de

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

- Hose, Dirk, Medizinische Klinik V, Universitätsklinikum Heidelberg, Heidelberg, Germany and Nationales Centrum für Tumorerkrankungen, Heidelberg, Germany; dirk.hose@med.uni-heidelberg.de

3) Design & Methods. The following authors were responsible for specific investigations:

- Hose, Dirk was responsible for sampling, plasma cell purification, gene expression profiling and statistical analysis
- Rème, Thierry was responsible for gene expression profiling and statistical analysis
- Hielscher, Thomas was responsible for statistical analysis
- Moreaux, Jérôme was responsible for cell culture experiments
- Meißner, Tobias was responsible for statistical analysis
- Seckinger, Anja was responsible for plasma cell purification, cell culture and gene expression profiling
- Benner, Axel was responsible for statistical analysis
- Shaughnessy, John D. Jr. was responsible for microarray experiments within the total therapy 2 trial
- Barlogie, Bart was responsible for the total therapy 2 trial
- Zhou, Yiming was responsible for for microarray experiments within the total therapy 2 trial
- Hillengass, Jens was responsible for sampling and collecting clinical data
- Bertsch, Uta was responsible for sampling and collecting clinical data
- Neben, Kai was responsible for sampling and collecting clinical data
- Möhler, Thomas was responsible for sampling and collecting clinical data
- Rossi, Jean François was responsible for sampling and collecting clinical data
- Jauch, Anna was responsible for iFISH

- Klein Bernard was responsible for gene expression profiling and statistical analysis
- Goldschmidt, Hartmut was responsible for sampling and collecting clinical data

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables:

- Hose, Dirk was responsible for data acquisition, analysis, interpretation and all figures/tables
- Rème, Thierry was responsible for data analysis
- Moreaux, Jérôme was responsible for data acquisition and analysis
- Meißner, Tobias was responsible for data acquisition, analysis and all figure/tables
- Seckinger, Anja was responsible for data acquisition, analysis and all figures/tables
- Benner, Axel was responsible for data analysis
- Shaughnessy, John D. Jr. was responsible for data acquisition
- Barlogie, Bart was responsible for data acquisition
- Zhou, Yiming was responsible for data acquisition
- Hillengass, Jens was responsible for data acquisition
- Bertsch, Uta was responsible for data acquisition
- Neben, Kai was responsible for data acquisition
- Möhler, Thomas was responsible data acquisition
- Rossi, Jean François was responsible data acquisition
- Jauch, Anna was responsible for data acquisition
- Klein Bernard was responsible for data acquisition, analysis and interpretation
- Goldschmidt, Hartmut was responsible for data analysis and interpretation

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Hose, Dirk,
- Seckinger, Anja
- Klein, Bernard
- Goldschmidt, Hartmut

6) **Contributors Listed in Acknowledgments:**

- Véronique Pantesco, technical assistance
- Katrin Heimlich, technical assistance
- Maria Dörner, technical assistance
- Gabriele Hock, technical assistance
- Hopp-Foundation, Germany, funding
- University of Heidelberg, Germany, funding
- National Center for Tumor Diseases, Heidelberg, Germany, funding
- Tumorzentrum Heidelberg/Mannheim, Germany, funding
- Deutsche Forschungsgemeinschaft, TRR79, Bonn, Germany, funding
- European Myeloma Stem Cell Network (MSCNET) funded within the 6th framework program of the European Community, funding
- Ligue Nationale Contre Le Cancer, Paris, France, funding
