

Manuscript no. HAEMATOL/2010/031484 entitled "Cytogenetically complex SEC31A-ALK fusions are recurrent in ALK-positive large B-cell lymphomas"

Authors: Bedwell, Rowe, Moulton, Jones, Bown, Bacon

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Chris Bacon, Newcastle University & Newcastle upon Tyne Hospitals, chris.bacon@ncl.ac.uk
- Nick Bown, Newcastle upon Tyne Hospitals, nick.bown@nuth.nhs.uk

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Chris Bacon, Nick Bown

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Clare Bedwell & Nick Bown were responsible for design, acquisition, analysis & interpretation of cytogenetic data.
- David Rowe & Nick Bown were responsible for design, acquisition, analysis and interpretation of molecular genetic data.
- Deborah Moulton & Gail Jones were responsible for acquisition, analysis and interpretation of clinical data.
- Chris Bacon was responsible for design, acquisition, analysis & interpretation of pathology data and for interpretation of cytogenetic and molecular genetic data

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Chris Bacon was responsible for data in Fig 1A & B
- Clare Bedwell & Nick Bown were responsible for data in Fig 1C, D, E & F
- David Rowe & Nick Bown were responsible for data in Fig 1G

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Chris Bacon was primarily responsible for writing the manuscript
- All authors contributed to the review and revision of the manuscript for technical and intellectual content
- All authors approved the final version of the manuscript for publication

6) **Contributors Listed in Acknowledgments**:

- Lisa Grady (Northern Genetics Service) - DNA sequencing
