

Manuscript no. HAEMATOL/2010/029520 entitled "T cells killing of primary follicular lymphoma cells is dramatically potentiated by GA101, a type II glycoengineered anti-CD20 monoclonal antibody" Authors: Mounia BRAZA, Bernard Klein, Genevieve FIOL, Jean-François ROSSI.

**Information about the contributions of each person named as having participated in the study**

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:  
Name Surname: Bernard Klein:  
Affiliation : INSERM U847 Montpellier France,  
email address: [bernard.klein@inserm.fr](mailto:bernard.klein@inserm.fr)

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:  
Bernard Klein  
Mounia Braza  
Jean-François Rossi

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

Mounia Braza: was responsible for conception and design, acquisition, analysis and interpretation of data.  
Bernard Klein was responsible for conception and design, and confirmation of interpretation of data.  
Genevieve Fiol was responsible for technical Elispot experiments together with Mounia Braza.  
Jean François Rossi was responsible for conception of data.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

Mounia Braza was responsible for all figures and tables and Bernard Klein corrected all figures and tables.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

Mounia Braza was responsible for writing the manuscript and Bernard Klein for correcting the manuscript.

6) Contributors Listed in Acknowledgments:

Financial and material support by la ligue contre le cancer.

  
Genevieve Fiol.

  
Pr Bernard KLEIN.
