

Manuscript no. HAEMATOL/2010/035329 entitled “Recipient lymphocyte infusion in MHC-matched bone marrow chimeras induces a limited lymphohematopoietic host-versus-graft reactivity but a significant antileukemic effect mediated by CD8⁺T-cells and natural killer cells“

Authors: Lien De Somer, Ben Sprangers, Sabine Fevery, Omer Rutgeerts, Caroline Lenaerts, Louis Boon, Mark Waer and An D Billiau

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- An D Billiau, MD PhD, an.billiau@med.kuleuven.be
- Mark Waer, MD PhD, mark.waer@rec.kuleuven.be

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Lien De Somer, Ben Sprangers, Sabine Fevery, Mark Waer and An D Billiau

3) Design & Methods. The following authors were responsible for specific investigations

- Lien De Somer, Ben Sprangers, Sabine Fevery, Caroline Lenaerts and Omer Rutgeerts performed in vivo and in vitro experiments.
- Louis Boon produced, provided and advised on the use of the anti-CD8 mAb.
- Lien De Somer, Sabine Fevery and An D Billiau performed statistical analyses.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- Fig 1: Ben Sprangers, Lien De Somer
- Fig 2: Ben Sprangers
- Fig 3: Ben Sprangers, Lien De Somer
- Fig 4 and 5: Lien De Somer, Sabine Fevery
- Mark Waer and An D Billiau oversaw the study.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Lien De Somer, Ben Sprangers and An D Billiau wrote the manuscript.
- Mark Waer critically revised the manuscript.

6) Contributors Listed in Acknowledgments: This work was supported by a grant from the Flanders National Fund for Scientific Research. LDS and BS are doctoral fellows and An D Billiau a postdoctoral fellow of the Flanders National Fund for Scientific Research. Sabine Fevery was supported by a research grant from the Flanders National Fund for Scientific Research.
