

Manuscript no. HAEMATOL/2010/033910 entitled "I L-2-inducible T cell kinase deficiency: clinical presentation and therapeutic approach. " Authors:

Polina Stepensky, Michael Weintraub, Asaf Yanir, Shoshana Revel-Vilk, Frank Krux, Kirsten Huck, Rene M. Linka, Avraham Shaag, Orly Elpeleg, Arndt Borkhardt and Igor B. Resnick

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Person who is responsible for the integrity of the work as a whole: Polina Stepensky, Hadassah Hospital, polina@hadassah.org.il

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:
• Polina Stepensky, Hadassah Hospital, polina@hadassah.org.il.
• Michael Weintraub, Hadassah Hospital, michaelw@hadassah.org.il.
• Igor Resnick, Hadassah Hospital, gashka@hadassah.org.il.

3) Design & Methods. The following authors were responsible for specific investigations
• Polina Stepensky, Michael Weintraub and Shoshana Revel-Vilk were responsible for patients treatment;
• Polina Stepensky, Asaf Yanir, Kirsten Huck, Frank Krux, Rene M. Linka, Avraham Shaag, Orly Elpeleg, Arndt Borkhardt, Igor Resnick were responsible for blood sample processing;
• Kirsten Huck, Frank Krux, Arndt Borkhardt were responsible for flow cytometry assay;
• Asaf Yanir, Avraham Shaag, Orly Elpeleg were responsible for SNP analysis and sequencing of gene;
• Rene M. Linke, Arndt Borkhardt were responsible for protein expression study.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables
• Polina Stepensky, Asaf Yanir, Igor Resnick were responsible for table 1.
• Polina Stepensky, Michael Weintraub, Shoshana Revel-Vilk, Igor Resnick were responsible for figure 1a (The pedigree of affected family).
• Asaf Yanir, Avraham Shaag, Orly Elpeleg were responsible for figure 1b (Gene sequencing).
• Kirsten Huck, Frank Krux, Arndt Borkhardt were responsible for figure 2a (Measurement of NKT cells by FACS).
• Rene M. Linke, Arndt Borkhardt were responsible for figure 2b (Immunoblot analysis of ITK).

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
• Polina Stepensky, Igor Resnick and Michael Weintraub were responsible for initial draft.

- Polina Stepensky, Michael Weintraub, Asaf Yanir, Shoshana Revel-Vilk, Frank Krux, Kirsten Huck, Rene M.Linke , Avraham Shaag, Orly Elpeleg, Arndt Borkhardt , Igor B. Resnick were responsible for revision and approval of the final draft.

6) Contributors Listed in Acknowledgments:

Arndt Borkhardt was supported by the German Network on Primary Immunodeficiency Diseases (PID-NET, subproject A5) from the Federal Ministry of Education and Research. Asaf Yanir was supported by the Internal Fund for young researcher of Hadassah Medical Organisation. We would like to thank Y.Sharir and S.Zenvirt in Jerusalem for excellent technical assistance. We would like to thank staff of Pediatric Hemato-Oncology department in Jerusalem, Israel involved in patient care and special thank for the parents of the patients who gave their informed consent.
