

**Manuscript no. HAEMATOL/2010/034173 entitled “PHILADELPHIA-POSITIVE ACUTE LYMPHOBLASTIC LEUKEMIA PATIENTS ALREADY HARBOR BCR-ABL KINASE DOMAIN MUTATIONS AT LOW LEVELS AT THE TIME OF DIAGNOSIS“**

**Authors: Simona Soverini, Antonella Vitale, Angela Poerio, Alessandra Gnani, Sabrina Colarossi, Ilaria Iacobucci, Giuseppe Cimino, Loredana Elia, Annalisa Lonetti, Marco Vignetti, Stefania Paolini, Giovanna Meloni, Valeria di Maio, Cristina Papayannidis, Marilina Amabile, Anna Guarini, Michele Baccarani, Giovanni Martinelli and Robin Foà**

**Information about the contributions of each person named as having participated in the study**

- 1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Giovanni Martinelli, Department of Hematology and Oncological Sciences “L. e A. Seràgnoli”, University of Bologna, Bologna, Italy, [martg@tin.it](mailto:martg@tin.it)
  - Simona Soverini, Department of Hematology and Oncological Sciences “L. e A. Seràgnoli”, University of Bologna, Bologna, Italy, [simona.soverini@tin.it](mailto:simona.soverini@tin.it)

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Simona Soverini, Giovanni Martinelli, Michele Baccarani, Robin Foà

3) **Design & Methods**. The following authors were responsible for specific investigations (please detail):

- Simona Soverini, Angela Poerio, Alessandra Gnani, Sabrina Colarossi were responsible for mutation analysis;
- Ilaria Iacobucci, Giuseppe Cimino, Loredana Elia, Annalisa Lonetti, Marilina Amabile, Valeria di Maio were responsible for cytogenetics and minimal residual disease monitoring of patients;
- Antonella Vitale, Cristina Papayannidis, Stefania Paolini, Marco Vignetti, Giovanna Meloni, Robin Foà, Giovanni Martinelli were responsible for patient recruitment and follow-up and collection of clinical data;
- Simona Soverini, Robin Foà, Giovanni Martinelli and Michele Baccarani were responsible for integration of results, data analysis and interpretation.

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

As above

5) **Writing the manuscript**. The following authors were responsible for writing the manuscript:

- Simona Soverini was/were responsible for writing the manuscript.

**6) Contributors Listed in Acknowledgments:** (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)
