

Manuscript no. HAEMATOL/2010/037481 entitled “Alloreactive and leukemia-reactive T cells preferentially derive from naive precursors in healthy donors: implications for immunotherapy with memory T cells“

Authors: Eva Distler*, Andrea Bloetz*, Jana Albrecht, Saliha Asdufan, Alexander Hohberger, Michaela Frey, Elke Schnürer, Simone Thomas, Matthias Theobald, Udo F. Hartwig, and Wolfgang Herr

***E.D. and A.B. contributed equally to this work**

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Wolfgang Herr, M.D., professor, wolfgang.herr@unimedizin-mainz.de

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Wolfgang Herr, Eva Distler

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Wolfgang Herr and Eva Distler designed research and analyzed data
- Andrea Bloetz, Jana Albrecht, and Saliha Asdufan analyzed data and performed research
- Alexander Hohberger, Michaela Frey, and Elke Schnürer performed research (technical assistance)

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Andrea Bloetz, Jana Albrecht, and Saliha Asdufan were responsible for Figure 1 and Online Supplementary Figure S1
- Eva Distler and Saliha Asdufan were responsible for Figure 2 and Online Supplementary Figure S2
- Jana Albrecht was responsible for Figure 3
- Andrea Bloetz was responsible for Figure 4 and Online Supplementary Figure S3
- Eva Distler and Andrea Bloetz were responsible for Online Supplementary Figure S4
- Eva Distler, Andrea Bloetz, Jana Albrecht, and Saliha Asdufan were responsible for Online Supplementary Table T1

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Wolfgang Herr and Eva Distler wrote the paper assisted by Andrea Bloetz
- Simone Thomas, Matthias Theobald und Udo F. Hartwig provided experimental support and vital reagents; they helped to discuss and revise the article and approved the final version to be published

6) Contributors Listed in Acknowledgments: (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)

- Magda Brikc for excellent technical assistance
- Ugur Sahin for providing cDNA vectors of HLA class II molecules
- Thomas Wölfel for providing K562-HLA-B/-C transfectant cells
