According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): "Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship".

**The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

**2) Authors who participated in the conception of the study:** Jaroslaw P. Maciejewski, Roy L. Silverstein, Anna M. Jankowska, Hadrian Szpurka and Andrew E. Schade

**3) Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Anna M. Jankowska, Hadrian Szpurka, Mark Calabro, Sanjay Mohan, Andrew E. Schade, Michael Clemente were responsible for the acquisition of data.
- Anna M. Jankowska, Hadrian Szpurka, Mark Calabro, Andrew E. Schade, Roy L. Silverstein and Jaroslaw P. Maciejewski were responsible for the analysis of data and interpretation of data.

- Jaroslaw P. Maciejewski and Roy L. Silverstein were responsible for overall design of the study and were supervising the experimentation and analyses.

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Anna M. Jankowska and Hadrian Szpurka were responsible for performing the majority of experiments, analyzing data and making final figures.
- Hadrian Szpurka was responsible for lipid rafts study and the corresponding figure.
- Anna M. Jankowska, Mark Calabro, Andrew E. Schade and Roy L. Silverstein were responsible for the design and the performance of platelets studies and the corresponding figure.
- Anna M. Jankowska and Michael Clemente were responsible for flow cytometry studies.
- Sanjay Mohan and Jaroslaw P. Maciejewski were responsible for inclusion of patients and clinical table.
- Anna M. Jankowska, Hadrian Szpurka, Mark Calabro, Sanjay Mohan, Andrew E. Schade, Michael Clemente, Roy L. Silverstein and Jaroslaw P. Maciejewski were responsible for participating in analysis, interpretation and discussion of all results, figures and table.

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Anna M. Jankowska, Hadrian Szpurka, Roy L. Silverstein and Jaroslaw P. Maciejewski were responsible for writing the manuscript; all other authors provided critical review.

6) **Contributors Listed in Acknowledgments:** (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)
