

Manuscript no. HAEMATOL/2010/037960 entitled “Serum hepcidin as a diagnostic test of iron deficiency in premenopausal female blood donors”

Authors: Sant-Rayn Pasricha, Zoe McQuilten, Mark Westerman, Anthony Keller, Elizabeta Nemeth, Tomas Ganz, Erica Wood

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Erica Wood, Australian Red Cross Blood Service, ewood@redcrossblood.org.au

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Sant-Rayn Pasricha, Zoe McQuilten, Anthony Keller, Mark Westerman, Elizabeta Nemeth, Tomas Ganz and Erica Wood

3) Design & Methods. The following authors were responsible for specific investigations:
• Sant-Rayn Pasricha, Zoe McQuilten, Anthony Keller and Erica Wood were responsible for overall design of the study.
• Mark Westerman, Tomas Ganz and Elizabeta Nemeth were responsible for advice on iron metabolism and performance of hepcidin assays.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:
• Sant-Rayn Pasricha, Zoe McQuilten and Erica Wood analysed the results and prepared all Tables and Figures.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
• Sant-Rayn Pasricha, Zoe McQuilten and Erica Wood drafted the manuscript.
• Mark Westerman, Tomas Ganz, Elizabeta Nemeth assisted in writing sections on iron metabolism and hepcidin analysis.

6) Contributors Listed in Acknowledgments: The authors would like to thank the Australian Red Cross Blood Service staff at the Southbank, Clarke Street and Bourke Street centers for recruiting subjects, collecting specimens and processing study samples. We are grateful to Associate Professor Damien Jolley, Senior Biostatistician, Monash Institute of Health Services Research, for assistance with statistical analysis. The study was supported by a grant from the Australian Red Cross Blood Service.
