

Manuscript no. HAEMATOL/2011/040261 entitled “Nonmyeloablative conditioning with allogeneic hematopoietic cell transplantation for the treatment of high risk acute lymphoblastic leukemia“

Authors: Ron Ram, Rainer Storb, Brenda M. Sandmaier, David G. Maloney, Ann Woolfrey, Mary E. D. Flowers, Michael B. Maris, Ginna G. Laport, Thomas R. Chauncey, Thoralf Lange, Amelia A. Langston, Barry Storer, and George E. Georges

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• George E. Georges, M.D., Fred Hutchinson Cancer Research Center, 1100 Fairview Ave N, D1-100; Seattle, WA 98109; Phone: 206-667-6886; FAX: 206-667-6124; email: ggeorges@fhcrc.org

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: George E. Georges, Rainer Storb, Brenda M. Sandmaier, David G. Maloney, Michael B. Maris

3) Design & Methods. The following authors were responsible for specific investigations:

- George E. Georges, Rainer Storb, Brenda M. Sandmaier, David G. Maloney, Michael B. Maris were responsible for design of the clinical study.
- George E. Georges, Rainer Storb, Brenda M. Sandmaier, David G. Maloney, Michael B. Maris, Barry Storer were responsible for methods/implementation of the study.
- Barry Storer, Ron Ram and George Georges were responsible for the statistical analysis.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Ron Ram, George E. Georges, Barry Storer, Brenda M. Sandmaier, David G. Maloney, Mary E. D. Flowers, Michael B. Maris, Ginna G. Laport, Thomas R. Chauncey, Thoralf Lange, Amelia A. Langston, Ann Woolfrey were responsible for evaluation, collection, assembly of the patient data including patient data and analysis from the individual participating clinical study sites.
- Ron Ram, George E Georges, Barry Storer, Rainer F. Storb, Brenda M. Sandmaier were responsible for data analysis and interpretation.
- Ron Ram, Barry Storer and George E Georges were responsible for Figures 1, 2 and 3 and for Table 3.
- Ron Ram and George E Georges were responsible for Tables 1 and 2.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- George E Georges, Ron Ram, Rainer F. Storb, Brenda M. Sandmaier were responsible for writing the manuscript.

- All of the authors contributed to the editing of the manuscript and all authors gave their approval for the final version of the manuscript.

The authors indicate no potential conflicts of interest.

6) Contributors Listed in Acknowledgments: (Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)

The corresponding author, George E Georges received type setting/ formatting assistance in the manuscript preparation as acknowledged from Helen Crawford, Bonnie Larson and Sue Carbonneau, who are employed as secretaries by the Fred Hutchinson Cancer Research Center. No other assistance in the study design, data collection, data analysis or manuscript preparation was provided (other than acknowledged in the author contribution section above and in the acknowledgement section).

The work was supported by grants from the National Institutes of Health, Bethesda, MD (grants P01CA018029, P01CA078902, and P30CA015704). Ron Ram was a recipient of a fellowship award from the Davidoff Foundation.

We thank the research nurses Michelle Bouvier and Hsien-Tzu Chen and data manager Gresford Thomas for their help in this study; Helen Crawford, Bonnie Larson, and Sue Carbonneau for manuscript preparation. We also thank the patients and their families, the transplantation teams, physicians, nurses, long-term follow-up team and support personnel for their dedicated care of patients on this study.
