

Manuscript no. HAEMATOL/2010/036277 entitled “Indolent mantle cell leukemia: clinicopathologic variant characterized by isolated lymphocytosis, interstitial bone marrow involvement, kappa light chain restriction, and good prognosis”

Authors: Sarah L. Ondrejka, Raymond Lai, Stephen Smith, Eric D. Hsi

Information about the contributions of each person named as having participated in the study

- 1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Eric D. Hsi. Cleveland Clinic Foundation, hsie@ccf.org

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

- 2) Authors who participated in the conception of the study:** Eric D. Hsi, Raymond Lai, Stephen Smith, Sarah Ondrejka

- 3) Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Sarah Ondrejka, Raymond Lai and Eric Hsi were responsible for conception, design, acquisition of data, analysis of data, interpretation of data, drafting the article and revising it critically for important intellectual content, and final approval of the version to be published.

- 4) Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Sarah Ondrejka, Eric Hsi, Raymond Lai and Stephen Smith were responsible for case identification and clinical characterization.
- Sarah Ondrejka, Eric Hsi, Raymond Lai and Stephen Smith were responsible for Table 1 and Table 2.
- Sarah Ondrejka, Eric Hsi, Raymond Lai were responsible for pathologic characterization, Table 2, figure 1, and figure 2.

- 5) Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Sarah Ondrejka, Eric Hsi, Raymond Lai and Stephen Smith were responsible for writing the manuscript.

- 6) Contributors Listed in Acknowledgments:** Neeraj Kumar is acknowledged for technical assistance. The corresponding author had no other assistance with the study design, data collection, data analysis, or manuscript preparation.

(Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)
