

Manuscript no. HAEMATOL/2010/038109 entitled “Survival impact of rituximab combined with ACVBP and upfront consolidation autotransplantation in high-risk diffuse large B-cell lymphoma for GELA”

Authors: Olivier Fitoussi, Karim Belhadj, Nicolas Mounier, Marie Parrens, Hervé Tilly, Gilles Salles, Pierre Feugier, Christophe Ferme, Loic Ysebaert, Jean Gabarre, Raoul Herbrecht, Maud Janvier, Eric Van Den Neste, Franck Morschhauser, Olivier Casasnovas, 15 Hervé Ghesquieres, 16 Bruno Anglaret, 17 Sabine Brechignac, 18 Corinne Haioun, and Christian Gisselbrecht

Information about the contributions of each person named as having participated in the study

- 1) Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
- Olivier Fitoussi, Service d’Onco-Hématologie, Polyclinique Bordeaux-Nord, Bordeaux, France, o.fitoussi@bordeauxnord.com
 - Christian Gisselbrecht, Service d’Onco-Hématologie, Hôpital Saint Louis, Paris, France, Christian.gisselbrecht@gmail.com

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

- Olivier Fitoussi, Service d’Onco-Hématologie, Polyclinique Bordeaux-Nord, Bordeaux, France
- Christian Gisselbrecht, Service d’Onco-Hématologie, Hôpital Saint Louis, Paris, France
- Karim Belhadj, Service d’Hématologie Clinique, Hôpital Henri Mondor, Créteil
- Corinne Haioun, Service d’Hématologie Clinique, Hôpital Henri Mondor, Créteil

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Olivier Fitoussi, Karim Belhadj, Corinne Haioun, Christian Gisselbrecht were responsible for clinical investigations
- Marie Parrens was responsible for anathomopathological investigations
- Nicolas Mounier was responsible for statistical investigations

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Olivier Fitoussi, Karim Belhadj, Christian Gisselbrecht were responsible all together for all the specific portions of the results

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Olivier Fitoussi, Karim Belhadj, Christian Gisselbrecht were responsible all together for the whole writing manuscript

6) Contributors Listed in Acknowledgments:

The authors would like to thank all the pathologists involved in the study for pathological review, especially J Brière, T Molina, C Copie- Bergman and Philippe Gaulard. They also thank GELARC (Groupe d'Etude des Lymphomes de l'Adulte - Recherche Clinique) for the clinical management of this work, M. Fournier for statistical analysis and Mathilde Dreyfus for editing the English.
