

Manuscript no. HAEMATOL/2010/029363 entitled “Anti-tumor activity and signaling events triggered by the isothiocyanates, sulforaphane and PEITC in multiple myeloma“

Authors: Jana Jakubikova, David Cervi, Melissa Ooi, Kihyun Kim, Sabikun Nahar, Steffen Klippel, Dana Cholujoval, Merav Leiba, John F. Daley, Jake Delmore, Joseph Negri, Simona Blotta, Douglas W McMillin, Teru Hideshima, Paul G Richardson, Jan Sedlak, Kenneth C Anderson and Constantine S Mitsiades

Information about the contributions of each person named as having participated in the study

1) **Guarantor(s)**, i.e., person(s) who is (are) responsible for the integrity of the work as a whole: Jana Jakubikova, ¹Jerome Lipper Multiple Myeloma Center, Dana Farber Cancer Institute, Department of Medical Oncology, Boston MA 02115, USA; ²Department of Medicine, Harvard Medical School, Boston MA 02115, USA; ³Cancer Research Institute, Department of Tumor Immunology, Vlarska 7, 83391 Bratislava, Slovak Republic
E-mail: jana_jakubikova@dfci.harvard.edu

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the **conception of the study**: Jana Jakubikova and Jan Sedlak

3) **Design & Methods**. The following authors were responsible for specific investigations:

- Jana Jakubikova was responsible for designed research, performed research, analyzed data
- Jan Sedlak was responsible for designed research and discussions
- Constantine S. Mitsiades was responsible for designed research and discussions
- Kenneth C. Anderson was responsible for designed research and discussions

4) **Results**. The following authors were responsible for specific portions of the results, including figures and tables:

- Jana Jakubikova performed research (Fig.1, Fig.2, Fig.3, Fig.4, Fig.5, Fig.6 and Table 1)
- Melissa Ooi performed research (part of Fig.3)
- Kihyun Kim performed research (Fig.6)
- Sabikun Nahar performed research (part of Fig.1)
- Steffen Klippel performed research (Fig.6)
- Dana Cholujoval analyzed data (in Fig.6)
- Merav Leiba performed research (part of Fig.2)
- John F. Daley analyzed data (part of Fig. 5)
- Jake Delmore performed research (part of Fig.1)
- Joseph Negri performed research (part of Fig.1)
- Simona Blotta performed research (part of Fig.3)
- Douglas W McMillin performed research (part of Fig.1)
- Teru Hideshima contributed research specimens

- Paul G. Richardson contributed research specimens

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Jana Jakubikova wrote the manuscript
- David Cervi contributed to the writing of the paper
- Jan Sedlak contributed to the writing of the manuscript
- Constantine S. Mitsiades contributed to the writing of the manuscript
- Kenneth C. Anderson contributed to the writing of the manuscript

6) **Contributors Listed in Acknowledgments:**

This work was supported in part by “Dunkin Donuts Rising Stars” Program at the Dana-Farber Cancer Institute (to C.S.M), the Chambers Medical Foundation (P.G.R and C.S.M.), and the National Institutes of Health Grants RO1-50947, PO-1-78378 (K.C.A.) and the Slovak R&D Agency grant VVCE-0001-07 (J.S.). KCA is an American Cancer Society Clinical Research Professor.
