

**Manuscript no. HAEMATOL/2010/039099 entitled “Successful generation of primary virus-specific and anti-tumor T cell responses from the naive donor T-cell repertoire is determined by the balance between antigen-specific precursor T cells and regulatory T cells “**

**Authors: Jedema I, van de Meent M, Pots J, Kester MGD, van der Beek MT, Falkenburg JHF**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:**

- I. Jedema, PhD, i.jedema@lumc.nl
- J.H.F. Falkenburg, MD/PhD, j.h.f.falkenburg@lumc.nl

According to the International Committee of Medical Journal Editors (ICMJE)

([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

**The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

**2) Authors who participated in the conception of the study:** I.Jedema & J.H.F. Falkenburg

**3) Design & Methods.** The following authors were responsible for specific investigations (please detail):

- I. Jedema & J.H.F. Falkenburg were responsible for the design of the study
- M. van de Meent & I. Jedema were responsible for the induction and characterization of immune responses
- J. Pots was responsible for the Treg experiments
- M.G.D. Kester was responsible for the generation and functional testing of peptide/MHC tetramers
- M.T. van der Beek was responsible for the experiments using CMV infected human fibroblasts

**4) Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- I. Jedema & J.H.F. Falkenburg were responsible for the design of the figures and tables

**5) Writing the manuscript.** The following authors were responsible for writing the manuscript:

- I. Jedema & J.H.F. Falkenburg were responsible for writing the manuscript

**6) Contributors Listed in Acknowledgments: -**
