

Manuscript no. HAEMATOL/2010/029801 entitled “The natural occurrence of human fibrinogen variants disrupting inter-chain disulfide bonds (AaCys36Gly, AaCys36Arg and AaCys45Tyr) confirms the role of N-terminal Aa disulfide bonds in protein assembly and secretion“

Authors: Michel Hanss, Catherine Pouymayou, Marie-Thérèse Blouch, Franck Lellouche, Patrick Ffrench, Robert Rousson, Jean-François Abgrall, Pierre-Emmanuel Morange, Florence Quélin, Philippe de Mazancourt

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Philippe de Mazancourt Université de Versailles Saint-Quentin philippe.de-mazancourt@uvsq.fr

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Philippe de Mazancourt and Michel Hanss

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Florence Quelin was responsible for sequencing analysis
 - Michel Hanss was responsible for electrophoretic and blot analysis
 - Robert Rousson was responsible for HPLC Studies
 - MT Blouch M Hanss and JF Abgrall were responsible for fibrinopeptide release experiments
- Catherine Pouymayou, Marie-Thérèse Blouch, Franck Lellouche, Patrick Ffrench, Jean-François Abgrall, Pierre-Emmanuel Morange were responsible for clinical and biological data gathering and interpretation

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Philippe de Mazancourt was responsible for figure 2
- Robert Rousson and Michel Hanss were responsible for figure 1
- Philippe de Mazancourt and Michel Hanss were responsible for table 1

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Philippe de Mazancourt and Michel Hanss were responsible for writing the manuscript.

6) Contributors Listed in Acknowledgments: none
