

**Manuscript no. HAEMATOL/2010/039743 entitled ““Blast-derived microvesicles in sera of acute myeloid leukemia patients suppresses NK cell function via membrane-associated TGF-beta1” “**

**Authors: M.J.Szczepanski, M. Szajnik, A.Welsh, T.L. Whiteside, M. Boyiadzis**

**Information about the contributions of each person named as having participated in the study**

**1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:**  
• Michael Boyiadzis , University of Pittsburgh, [boyiadzism@upmc.edu](mailto:boyiadzism@upmc.edu)

According to the International Committee of Medical Journal Editors (ICMJE) ([http://www.icmje.org/ethical\\_1author.html](http://www.icmje.org/ethical_1author.html)): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 ..... Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

**The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.**

**2) Authors who participated in the conception of the study:** Michael Boyiadzis and Theresa L. Whiteside

**3) Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Mirosław J. Szczepanski was responsible for performing experiments with NK cells
- Marta Szajnik was responsible for MV purification and for Western blot experiments
- Ann Walsh was responsible for consenting the patients and obtaining blood specimens

**4) Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Michael Boyiadzis was responsible for creating Table 1.
- Mirosław Szczepanski was responsible for creating all figures

**5) Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Michel Boyiadzis and Theresa Whiteside were responsible for writing the manuscript

**6) Contributors Listed in Acknowledgments:** Financial Support was provided in part by the NIH grant PO1 CA109688 to Theresa L. Whiteside and by grants to M. J. Szczepanski from the Polish Ministry of Science and Higher Education (NN401047738) and the Foundation for Polish Science (Homing Plus/2010-1/13)

(Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support.

Corresponding authors must declare whether they had assistance with the study design, data collection, data analysis, or manuscript preparation. If such assistance was available, the authors must disclose the identity of the individuals who provided this assistance and the entity that supported it. Financial and material support should also be acknowledged.)
