

Manuscript no. HAEMATOL/2011/048165 entitled “Durable complete molecular remission of chronic myeloid leukemia following dasatinib cessation, despite adverse disease features“

Authors: David M Ross, Paul A Bartley, Jarrad Goyne, Alexander A Morley, John F Seymour, and Andrew P Grigg

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• David Ross, SA Pathology, david.ross@health.sa.gov.au

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: David M Ross, John F Seymour, and Andrew P Grigg

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

• Paul A Bartley, Jarrad Goyne, Alexander A Morley were responsible for designing and performing DNA PCR assays

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

• David M Ross, John F Seymour, and Andrew P Grigg were responsible for the text and Figure 1
• Paul A Bartley, and Alexander A Morley were responsible for DNA PCR results

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

• David M Ross, John F Seymour, and Andrew P Grigg were responsible for writing the manuscript
• Paul A Bartley, Jarrad Goyne, Alexander A Morley were responsible for reviewing and approving the final manuscript

6) Contributors Listed in Acknowledgments:

Rosemary Hoyt, Royal Melbourne Hospital collected clinical information and patient samples, David Westerman, Peter MacCallum Cancer Centre collected patient samples, Brad Budgen, Flinders University provided technical assistance; and Lesley Snell, SA Pathology, provided technical assistance.
