

Manuscript no. HAEMATOL/2011/041921 entitled “Mutation analysis of the tyrosine phosphatase PTPN2 in Hodgkin lymphoma and T-cell non-Hodgkin lymphoma”

Authors: Maria Kleppe, Thomas Tousseyn, Eva Geissinger, Zeynep Kalender, Stein Aerts, Andreas Rosenwald, Iwona Wlodarska and Jan Cools.

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Cools, Jan, Department of Molecular and Developmental Genetics, VIB, Leuven Belgium; Center for Human Genetics, K.U. Leuven, Leuven, Belgium, jan.cools@cme.vob-kuleuven.be

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Maria Kleppe, Thomas Tousseyn, Eva Geissinger, Zeynep Kalender, Stein Aerts, Andreas Rosenwald, Iwona Wlodarska and Jan Cools

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Maria Kleppe was responsible for functional and genetic screening of lymphoma cell lines and patient samples, functional studies, data analysis and interpretation
- Jan Cools was responsible for design of the study and data analysis
- Zeynep Kalender and Stein Aerts were responsible for analysis of 454 sequence data
- Eva Geissinger, Andreas Rosenwald, Iwona Wlodarska and Thomas Tousseyn provided primary samples and were responsible for cytogenetic and pathological analysis

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Maria Kleppe and Jan Cools were responsible for Figure 1 and Figure 2, Supplementary Figure S1
- Maria Kleppe, Jan Cools, Iwona Wlodarska, Thomas Tousseyn, Andreas Rosenwald and Eva Geissinger were responsible for Figure 3
- Stein Aerts and Zeynep Kalender were responsible for Supplementary Table S1
- Eva Geissinger, Andreas Rosenwald, Iwona Wlodarska, Thomas Tousseyn and Maria Kleppe were responsible for Supplementary Table S2

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Maria Kleppe and Jan Cools drafted the manuscript
- Iwona Wlodarska, Eva Geissinger, Thomas Tousseyn, Andreas Rosenwald and Stein Aerts revised it critically for important intellectual content

6) Contributors Listed in Acknowledgments:

Acknowledgments

The authors would like to thank Ralf Küppers, Institute of Cell Biology (Tumor Research), University of Duisburg-Essen for providing genomic DNA of Hodgkin lymphoma cell lines.

Funding

This work was supported by the K.U.Leuven (grant GOA/11/010 to JC and IW; grant PF/10/016 SymBioSys to JC and SA), the FWO-Vlaanderen (G.0287.07, JC), the Foundation against Cancer (SCIE2006-34, J.C.), and the European Research Council (ERC-starting grant to JC).
