

Manuscript no. HAEMATOL/2011/050468 entitled “SWAP-70 regulates erythropoiesis by controlling a4 integrin“

Authors Tatsiana Ripich and Rolf Jessberger

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Tatsiana Ripich
- Rolf Jessberger

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.*

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

- Tatsiana Ripich
- Rolf Jessberger

3) Design & Methods. The following authors were responsible for specific investigations

- Tatsiana Ripich
- Rolf Jessberger

4) Results. The following authors were responsible for specific portions of the results, including figures and tables

For all tables and figures:

- Tatsiana Ripich
- Rolf Jessberger

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Tatsiana Ripich
- Rolf Jessberger

6) Contributors Listed in Acknowledgments:

Dr. Hans-Reimer Rodewald and Dr. Grzegorz Terszowski for initial help with the colony-forming assays, FACS analysis and FACS sorting of early progenitors (CFU-Es)

Dr. Barry Coller, Rob Blue (Rockefeller University, NY) and Christian Thiede (TU Dresden, Germany) for help with blood analyses

Carlos Andrés Chacón-Martínez and Dr. François McNicoll for critical reading and editing of the manuscript

Nadine Kiessling for technical support.
