

Manuscript no. HAEMATOL/2011/046466 entitled “Quercetin-mediated Mcl-1 and survivin downregulation restores TRAIL-induced apoptosis in non-Hodgkin’s lymphoma B cells“

Authors: Guillaume Jacquemin, Virginie Granci , Anne Sophie Gallouet , Najoua Lalaoui, Aymeric Morlé, Elisabetta lessi, Alexandre Morizot, Carmen Garrido, Thierry Guillaudeux, and Olivier Micheau

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Olivier Micheau, INSERM, U866, Dijon, France. email : olivier.micheau@inserm.fr

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Guillaume Jacquemin, Thierry Guillaudeux and Olivier Micheau

3) Design & Methods. The following authors were responsible for specific investigations
• Guillaume Jacquemin, Virginie Granci, Najoua Lalaoui, Aymeric Morlé, Alexandre Morizot were responsible for experiments involving VAL and RL cells, western blot, immunoprecipitation, DISC analysis, Flow cytometry analysis, siRNA transfection by Amaxa, qPCR, MOMP analysis, TRAIL production, and cell fractionation.
• Najoua Lalaoui, Alexandre Morizot and Anne-Sophie Gallouet were responsible for generation of c-FLIP-expressing SUDHL4 cells and analysis of apoptosis analyzed by Flow cytometry or Hoescht.
• Thierry Guillaudeux and Anne-Sophie Gallouet were responsible for combined TRAIL/Quercetin treatments in normal B cells from tonsils and lymph nodes.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:
• Guillaume Jacquemin and Virginie Granci were responsible for Figure 1, 2 and supplementary Figure 1.
• Guillaume Jacquemin was responsible for Figure 3, 4, supplementary Figure 2, 3, 5, 6 and 7.
• Anne Sophie Gallouet, Alexandre Morizot and Najoua Lalaoui were responsible for supplementary Figure 4.
• Aymeric Morlé, Najoua Lalaoui, Virginie Granci and Elisabetta lessi were responsible for Figure 4 and supplementary Figure 6.
• Anne Sophie Gallouet were responsible for supplementary Figure #8.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
• Guillaume Jacquemin, Thierry Guillaudeux, Carmen Garrido and Olivier Micheau were responsible for writing the manuscript.
• all other authors critically revised the manuscript.

6) Contributors Listed in Acknowledgments: The authors would like to thank Eric Solary and Sarah Shirley for critical reading of the manuscript, Patrick Tas, Jean-Michel Picquenot, Christophe Ruaux, and the Centre de Ressources (CRB)-Santé of Rennes hospital, for providing non-malignant lymph nodes and tonsil samples.
