

Manuscript no. HAEMATOL/2011/055038 entitled “A novel compound heterozygous HAX1 mutation in a Chinese patient with severe congenital neutropenia and CMML transformation but without neurodevelopmental abnormalities”

Authors: Sheng-Li Xue, Jin-Li Li, Jing-Ying Zou, Jian Su, Su-Ning Chen, and De-Pei Wu

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- De-Pei Wu, Department of Hematology, the First Affiliated Hospital of Soochow University; Jiangsu Institute of Hematology, the First Affiliated Hospital of Soochow University, wudepei@suda.edu.cn

- Sheng-Li Xue, Department of Hematology, the First Affiliated Hospital of Soochow University; Jiangsu Institute of Hematology, the First Affiliated Hospital of Soochow University, slxue@suda.edu.cn

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Sheng-Li Xue, De-Pei Wu

3) **Design & Methods.** The following authors were responsible for specific investigations (please detail):

- Sheng-Li Xue, Jin-Li Li and Jing-Ying Zou designed the study.
- De-Pei Wu supervised the study.
- Su-Ning Chen advised on the study.

4) **Results.** The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Sheng-Li Xue, Jin-Li Li and Jing-Ying Zou were responsible for the clinical data collection and performed partial laboratory work.
- Jian Su performed partial laboratory work.

5) **Writing the manuscript.** The following authors were responsible for writing the manuscript:

- Sheng-Li Xue, Jin-Li Li and Jing-Ying Zou wrote the manuscript.

6) **Contributors Listed in Acknowledgments:**

This work was supported by a grant from the government of Jiangsu Province (A Project Funded by the Priority Academic Program Development of Jiangsu Higher Education Institutions, PAPD2011)

The authors are indebted to the patient and his family for participating in this study and would like to thank Yan Chen, Li-Juan Cao for their technical assistance in the laboratory work.
