

Manuscript no. HAEMATOL/2011/054775 entitled “Risk factors for in-hospital venous thromboembolism in children:a case-control study employing diagnostic validation“

Authors: Brian R. Branchford, Peter Mourani, Lalit Bajaj, Marilyn Manco-Johnson, Michael Wang, and Neil A. Goldenberg

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Brian Branchford, Children’s Hospital Colorado and University of Colorado, brian.branchford@childrenscolorado.org
- Neil Goldenberg, Children’s Hospital Colorado and University of Colorado, neil.goldenberg@cpcmed.org

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Brian Branchford, Pete Mourani, Lalit Bajaj, Mike Wang, Marilyn Manco-Johnson, Neil Goldenberg

3) Design & Methods. The following authors were responsible for specific investigations (please detail):

- Brian Branchford and Neil Goldenberg were responsible for confirming case and control criteria.
- Brian Branchford extracted risk factor data from medical record reviews and analyzed them with the help of Neil Goldenberg.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables (please indicate the person responsible for each figure and each table):

- Brian Branchford and Neil Goldenberg were responsible for creating all figures and tables and statistical analysis.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Brian Branchford and Neil Goldenberg were responsible for drafting the manuscript
- Pete Mourani, Lalit Bajaj, Marilyn Manco-Johnson, and Mike Wang were responsible for reviewing multiple editions of the manuscript

6) Contributors Listed in Acknowledgments:

Deborah Batson, Clinical Research Data Warehouse Architect at The Children’s Hospital, Colorado, for her assistance with case and control group identification by ICD-9 codes and admission/discharge dates
