

Manuscript no. HAEMATOL2011/056101 entitled “Expression of c-Met oncogene by tumor cells predicts a favorable outcome in classical Hodgkin’s lymphoma”

Authors: C.Xu, W.Plattel, A. van den Berg, N. Ruther, X. Huang, M. Wang, D. de Jong, H. Vos, G van Imhoff, A. Viardot, P. Moller, S. Poppema, A. Diepstra, L. Visser

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
• Lydia Visser, University of Groningen, l.visser@umcg.nl

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Chuanhui Xu, Anke van den Berg, Lydia Visser

3) Design & Methods. The following authors were responsible for specific investigations

- Chuanhui Xu, Wouter Plattel were responsible for immunohistochemistry
- Xin Huang performed EBER staining
- Chuanhui Xu and Miao Wang performed western Blots
- Debora de Jong performed RT-PCR
- Hans Vos performed ELISA and cell culture
- Chuanhui Xu and Lydia Visser performed flowcytometry
- Arjan Diepstra and Sibrand Poppema were responsible for scoring the immunohistochemistry, subtyping and EBER
- Nele Ruther, Andreas Viardot and Peter Moller were responsible for the German patient data
- Gustaaf van Imhoff was responsible for Dutch patient data

4) Results. The following authors were responsible for specific portions of the results, including figures and tables

- Wouter Plattel was responsible for all statistics and tables and figure 2
- Chuanhui Xu was responsible for figures 1 and 3

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Chuanhui Xu was responsible for introduction , material and methods and results.
- Wouter Plattel was responsible for statistical methods and results
- Lydia Visser was responsible for the discussion

6) Contributors Listed in Acknowledgments: None
